Disability Direct

Who?

Disability Direct is a local charity supporting disabled people and those with long term health problems – our website receives several thousand hits a month from our service users, health professionals, carers and members of the public.

Why?

Disabled people account for around 10% of the population – add to this the vast numbers of friends, families, carers and professionals using the Disability Direct website and you will see that www.disabilitydirect.com reaches a unique, yet sizable proportion of local residents.

Advertising with us shows you have actively considered your legal and good practice obligations around disability. You'll see that advertising your services with us is a great opportunity and extremely good value.

How?

Contact Donna Brady on 01332 404027 or email donna@disabilitysyndicate.com to discuss your requirements.
